Edwin F. Corey is Chairman of the association, and W. A. Shelton Secretary, Another indignation meeting was held win F. Corey is Chairman of the association, and W. A. Shelton Secretary.

Another indignation meeting was held last evening by the parishioners of All Saints Church, at One Hundred and Twenty-ninth street and Madison avenue, at which the proposed extension was vigorously denounced. Rev. Father J. W. Bower, pastor of the Church, acted as chairman, and a committee was appointed to get signatures to a petition protesting against the construction of an Elevated road in that street. Commissioner Stelnway, while he has not given up his idea of underground rapid transit in the future, declares that he and his colleagues have given deep study to the problem of providing immediate facilities for transportation by the present Elevated Railway system. The result at which they have arrived is not intended as a makeshift, but gives to the Elevated road the means of fully developing its system within its present limits, and without monopolizing any more additional space in the streets of the city than is absolutely necessary.

"I think," says he, "that the Company of the Individual of the Revolution, "The Daughters of the R necessary. ink," says he, "that the Company

for live years, at least, below the factoriem River."

Mr. Steinway believes that, in granting the privileges which the Board has recommended, the interests of real rapid transit in the future will not be in any way interfered with.

With regard to the Broadway and Boulevard route asked for by the Manhattan people, he says he will never consent to the use of those streets for an Elevated structure under any consideration whatever.

Commissioner Spencer, who is a practical railroad man, is strongly in fayor

eration whatever.

Commissioner Spencer, who is a practical railroad man, is strongly in favor of granting more privileges to the Elevated Railroad than the Commission has seen fit to recommend. Of course, whatever new routes may be adopted, it is to be expected that there will be opposition on the part of citizens the value of whose property may be affected. As a railroad company cannot be expected to be run at a loss, he is as willing that the profits should go to the Manhattan Railway Company as to any other.

"As a railroad man," he says, "I be issue is whether the Law and Order people and the race-track men. The latter claim they will carry the election. Circulars have been distributed about the village, containing a statement to the effect that Edward Busach, engineer of the Board of Sewer Commissioners, has been paying \$41 a month of his salary to certain members of the Sewer Commission to hold his office. Engineer Busach's salary is supposed to be about \$200 a month.

It was also stated in the circular that Capt. Edward Sheridan, one of the Sewer Commissioners, had some interesting information to give to the public. Commissioner Sheridan, who keeps a grocery store on Bond street, in the village, said this morning that he did not care to make a statement until an investigation was held.

Engineer Busach said it was true that he had paid money every month to the Sewer Commissioners, and he always supposed that Commissioner Sheridan, however, had denied this to him.

The taxpayers demand a full investigation and believe that there is more rottenness yet to be disclosed in the village government.

It is alleged that one of the Sewer Commissioners offered his vote for \$3,000 to give the privilege for the construction of a tunnel under the Richmond Terrace.

LETTER-CARRIERS PLEASED.

The United States Supreme Court Decides the Eight-Hour Question, The letter-carriers are much pleased with the decision of the Uniod tta es Suprema ours handed down yesterday, amrming the judgment of the Court of Claims in favor of the letter-carriers in the cases of Aaron S. Post and Frank Gates, who contended that a letter-carrier's day is eight hours, and that he is entitled to extra pay for any overtima.
John N. Parsons, President of the LetterCarriers' Association of New York, said this
morning that although other letter-carriers
had suits against the Government, he did not
think they would care to make any further
claims, but would be satisfied with a fair and
rigid enforcement of the Eight-Hour Day law.
